² Minimum Benefits Payable (MBP) means that we will pay the minimum amount of benefits that we are required to pay under the Private Health Insurance Act, to or on behalf of a member for hospital treatment under a Hospital cover. If you're attending a Private Hospital for these services, there will be significant out-of-pocket costs. If a treatment important to you is listed as MBP, we recommend you consider a higher level of cover

³ Hospital Treatment provided by a registered podiatric surgeon is limited to cover for accommodation and prosthetic devices. No benefits are payable for podiatric surgeon fees, medical specialist fees (e.g. anaesthetist) or theatre costs. Refer to the Policy Booklet for more information.

⁷ Common treatments means a number of Medical Benefits Schedule (MBS) items commonly used across services covered by your policy. Support treatments means a number of MBS items used to support a principal treatment covered by your policy. Common and support treatments will be covered in line with the level of cover your product provides for the principal treatment. Refer to the Policy Booklet for more information.

⁸ Associated treatment for complications means treatment provided during an episode of covered hospital treatment to address a complication that arises during that episode. Associated unplanned treatment means unplanned treatment provided during an episode of covered planned surgery that is, in the view of the medical practitioner providing the unplanned treatment, medically necessary and urgent. Associated treatments will be covered in line with the level of cover your product provides for the principal treatment. Refer to the Policy Booklet for more information.

What is Covered In-Hospital at a Non-Agreement Private Hospital

If you choose to be treated at a private hospital that does not have an agreement with us, we will pay towards the costs of the services listed above but you are likely to incur greater out-of-pocket expenses for most hospital related services than you would at an agreement hospital.

Hospital Excess

A hospital excess is the amount you pay towards the cost of a hospital stay before any benefits are payable by us. **A higher excess means your premiums with us will be lower.**

You only pay an excess if you or someone (other than a dependant child under 21 years of age) on your policy goes to hospital. The excess applies per person per calendar year and is payable directly to the hospital prior to your admission. The excess for couples, single parents and families is capped at twice the chosen level of excess in any calendar year.

Please note: If you've recently switched hospital covers your previous level of excess may apply for up to 12 months for pre-existing conditions. Refer to the Policy Booklet for more information.
